# Enterprise Technical cnMaestro™ Specialist

Program Overview

The Cambium Networks Enterprise Technical cnMaestro™ Specialist Learning Program is designed to equip users to deploy, manage, optimize and troubleshoot networks using the cnMaestro management platform.

What You Will Learn

The Cambium Certified Enterprise cnMaestro Specialist training program helps you develop the skills to configure, monitor, optimize, and troubleshoot networks using cnMaestro for centralized management. You'll learn how to configure and manage wireless, wired, and fixed broadband solutions, optimize network performance, and enhance user experiences. The training also covers security, compliance, and resource management, ensuring you can maintain reliable and efficient network operations.

Certification*

Upon completing each course, you can pursue certification, which serves as a tangible demonstration of your acquired competency and knowledge.

Badging

After successfully completing all courses, labs and certification exams, you'll receive a Cambium Certified Enterprise cnMaestro Specialist program badge.

Expertise & Proficiency
Validate your technical expertise and proficiency in Cambium's networking solutions, enhancing your credibility within the industry.

Cambium Certification
Recognized globally, showcasing your commitment to Cambium Enterprise products.

Demonstrate your skills and have a clear pathway to continuous learning, professional growth, and increased career prospects in the field of networking.

Note: Upon completing the eLearning course, learners will receive a notification with instructions on how to enroll in the training lab and complete the associated course. Both the training lab and the exam are required for certification.

Preparing for the Exams

Cambium Networks highly recommends that candidates seeking certification take all courses outlined in the learning path. Successful completion of the courses, along with reviewing user guide and lab materials, will increase your chances for passing the exam.

About Cambium Networks

Cambium Networks enables service providers, enterprises, industrial organizations, and governments to deliver exceptional digital experiences and device connectivity with compelling economics. Our ONE Network platform simplifies management of Cambium Networks' wired and wireless broadband and network edge technologies. Our customers can focus more resources on managing their business rather than the network. We deliver connectivity that just works.
